

## Community Survey 2020

PLan - the Planning Action Network Inc is a volunteer community group working for better urban and rural planning in the Northern Territory.

Please tick the most appropriate answer to the following statements according to your own personal opinion.	agree	disagree	no opinion
1. Good planning is important. There is not enough community consultation.			
2. NT Legislation should prevent foreshores, headlands, escarpments and lands zoned for public use from being privatised.			
3. The NT Government should preserve more of our heritage buildings and places using strengthened legislation.			
4. The Planning Scheme must ensure that community managed spaces are unfenced except where controlled access is specifically needed.			
5. Darwin and surrounds need more green-space public areas that are environmentally sustainable.			
6. Legally protected open space recreation needs of the public must be planned for through the Planning Scheme.			
7. Developers leaving project sites unsafe or abandoned should receive penalties for failing to complete or reinstate the site.			
8. House lots in urban areas must be at least 800 square metres, especially in the tropics.			
9. Rural lots should have a minimum size of 1 hectare of constraint-free land.			

***Please Turn Over***

	agree	disagree	no opinion
10. By law, developers must respond to good community amenity principles and use architectural designs appropriate to local NT environmental sustainability e.g. tropical or desert.			
11. Specific Use Zoning and Exceptional Development Permits should not be used in planning as the outcomes are non-standard.			
12. The Planning Scheme should advertise recognised pathways whereby the public can acquire Crown land community spaces for group and not-for-profit uses.
